BACKGROUND

With my past experiences, I have learned where my strengths lie. My goal is to continue to find ways to grow my experience and knowledge in ways that allow me to tap into the creative side of my personality, while always accessing the organized side, to create a product that is the absolute best outcome for everyone involved. I enjoy writing code and turning anyone's design into an interactive product through HTML and CSS.

EDUCATION

UI Design, The Iron Yard

📅 Oct 2016 - Jan 2017 🌐 Raleigh, NC

12-week immersive course focusing on interface design and user experience. 700+ hours spent perfecting the art of creating dynamic, interesting, responsive, and user friendly websites. Focused on building foundation skills, clean and efficient coding, and complete shippable product.

East Carolina University

📅 Aug 2001 - May 2003 🌐 Greenville, NC
